

Century Group Provides New Sign for Church

Century Group Inc. manufactured a precast concrete sign for Houston River Baptist Church in Sulphur, Louisiana. The high strength steel reinforced precast concrete sign was designed to be installed in a brick wall to match the façade of the new Houston River Baptist Church worship sanctuary. Scott Taylor Construction installed the precast concrete sign which included the church logo, and graphics cast into the face. The precast concrete sign was hand painted with the church colors. Johnny Bergeron Century Group's Vice President of Marketing-Architectural Precast Division commented, "We are very proud to be able to manufacture the Houston River Baptist Church precast concrete sign. The sign is truly one of the focal points of the church complex from Highway 27 and compliments the architectural theme of the new worship center."

Century Group Inc. specializes in the manufacture of precast concrete signs for churches, schools, commercial developments, and industry across North America. For more information on Century Group Inc.'s precast concrete signs, and other precast concrete products email the Century Group Precast Products Division or call 1-800-527-5232, Ext. 165.
